VPS UNDERFLOOR HEATING

# Who are we?

VPS are an independent UK supplier based near Glasgow, Scotland. With over 10 years of experience, we have designed and supplied thousands of systems across the UK.

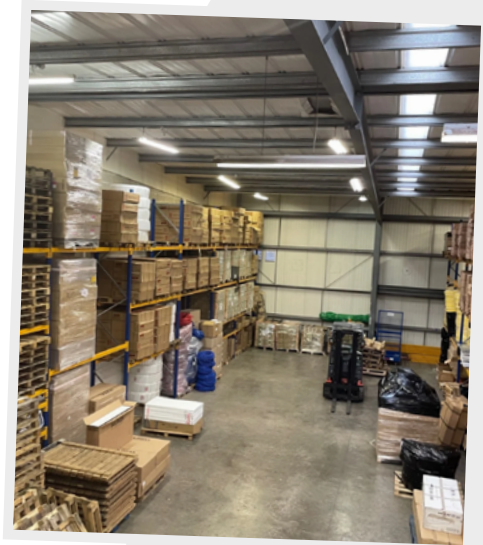

We pride ourselves on providing a professional and reliable service, building relationships with our customers and ensuring every project runs smoothly from start to finish.

We hold extensive stock of the products you need, allowing us to offer fast nationwide delivery, including next-day and pre-10am options when required.

We use trusted industry brands for key components while also sourcing our own high-quality materials to ensure every system we supply is reliable, efficient, and built to last.

With clear pricing, quality products, and dependable service, you can move forward with confidence, knowing your project is in safe hands.

- Competitive Prices
- Free Quotes
- Trusted Brands
- Trade Discounts
- Quick UK Delivery

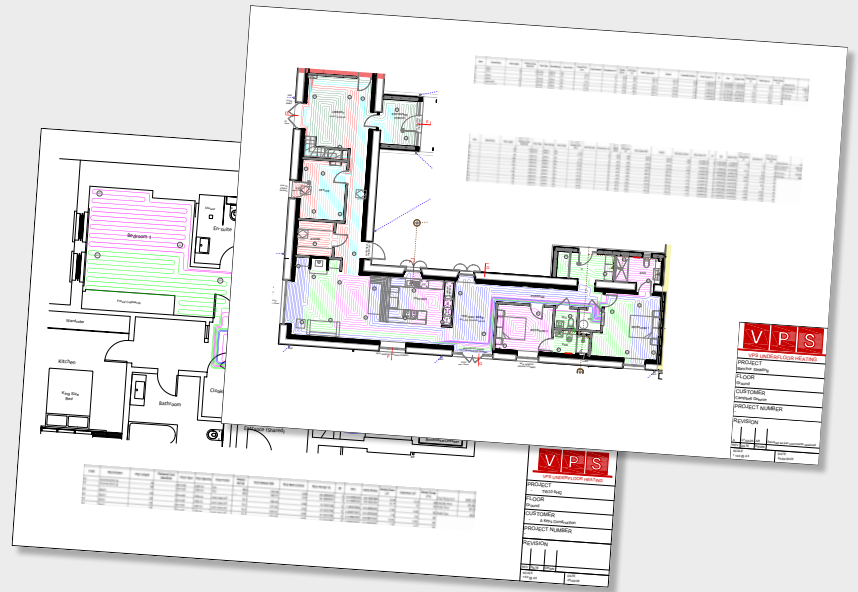

# UFH Design Service

We offer a free design service with all orders. Our expert design engineers use the latest CAD technology, with layouts that conform to British Standards.

Each order comes with a printed A3 design for reference. We also allow as many amendments as needed to ensure you have a system completely tailored to your requirements.

- Pipe Layouts
- Loop Lengths
- Flow Rate Settings
- System Output

## Manifolds

Underfloor heating manifolds are available in 2 to 12-port sizes. Made of premium stainless steel, these distribution manifolds are durable and guarantee optimal performance for your underfloor heating system with a 5-year warranty.

Each heating manifold includes key components; genuine brass Taconova flow meters, fill and drain points, pressure gauge, and automatic air vent. Actuators can be installed in place of flow caps in the return bar to enable smart control of the system.

You can use the underfloor heating manifold to run both radiator and underfloor heating systems.

### Key Features

- ✓ 2 - 12 port sizes
- ✓ 5-year warranty
- ✓ Industrial grade 304 stainless steel
- ✓ Genuine Taconova Flow meters
- ✓ Fill and drain points, Pressure gauge & Automatic air vent

Code	Size	Price
VPSMAN02	2 Port Manifold	£47.35
VPSMAN03	3 Port Manifold	£59.00
VPSMAN04	4 Port Manifold	£70.09
VPSMAN05	5 Port Manifold	£85.39

MANVALVE	Actuator Valve	£8.75

## Control Pack & Pumps

## V P S

### VPS 372 Control Pack

The pre-assembled unit combines the Grundfos UPM3 Auto Pump and ESBE 372 mixing valve, allowing easy installation directly to a manifold.

The blending valve mixes the flow and return water of the system and can be set between 20°C - 55°C. The pump efficiently circulates the water, while dedicated gauges display the temperatures of both the flow and return.

#### Key Features

- ✓ Control flow temperatures with a stability of +/-3°C Adjustable from 20°C to 55°C,
- ✓ 'A' rated Grundfos UPM3 Pump
- ✓ Temperature gauges on flow and return arms
- ✓ Fully reversible to fit either end of the manifold

Code	Size	Price
GF-EBV-MCP01	Manifold Control Pack Grundfos UPM3 25-70 130 Pump ESBE VTA372 Blending Valve	£184.00

## T4 Pump Pack

This control pack features the ESBE VTA T4 mixing valve, Grundfos UPM3 Auto Pump. This set features 3/4" connections to mains supply and a temperature display on the flow arm.

Code	Size	Price
GF-EBV-MCP-T4	Manifold Control Pack c/w Grundfos UPM3 25-70 130 Pump, ESBE T4 Blending Valve	£210.00

## Heat Pump Pack

Designed for systems using low-temperature heat sources, this control pack mounts directly to the manifold for fast, tidy installation. With no blending valve, flow is delivered straight into the system for maximum efficiency. Features the reliable Grundfos UPM3 Auto Pump.

Code	Size	Price
GF-MCP-HP	Heat Pump Control Pack c/w Grundfos UPM3 25-70 130 Pump	£160.83

## Single Zone Pack

Single zone system which combines the Grundfos UPM3 auto circulation pump and ESBE 372 blending valve into a compact design.

Code	Size	Price
GF-ESBE-SZ-MCP	Grundfos Single Circuit Pump Pack w/ ESBE Mixing Valve Unit	£209.57

## Pumps & Fittings

Code	Size	Price
mcp-fittings	Fittings Only	£39.00
mcp-hp-fittings	Heat Pump Fittings Only	£59.00
GF-UMP3	Grundfos Pump	£98.99
VTA372	ESBE VTA 372 Thermostatic Mixing	£70.83

# Underfloor Heating Pipe

# V P S

**Made In  
The EU**

## | Pert - Al - Pert

Underfloor heating pipe PERT-AL-PERT is manufactured in the EU with a focus on quality. It is WRAS approved and backed by PN-EN ISO certifications. Made from a 5-layer composite, it features an aluminium core, encased by inner and outer layers of raised temperature polyethylene (PERT).

This underfloor heating pipe is energy-efficient, flexible, and capable of performing under maximum conditions rated at 10 bar and 95°C.

Our premium pipe is easy to install with a minimum bending radius of 80mm. Unlike most aluminium core pipe it has no shape remembrance making it easier to form & holds its shape once positioned.

Code	Size	Price
PERTALPERT80	Pert Al Pert - 80m	£51.52
PERTALPERT100	Pert Al Pert - 100m	£64.40
PERTALPERT200	Pert Al Pert - 200m	£128.80
PERTALPERT500	Pert Al Pert - 500m	£322.00

**Made In  
The EU**

## | Pert EVOH 500m

5-layer composite pert pipe with an EVOH anti-diffusion layer. Durable construction with improved flexibility. Estimated lifespan of min 50 years

Code	Size	Price
PERTEVOH500	Pert Evoh - 500m	£220.00

Although we only stock 16mm pipe we hold a variety of fittings so suit 12, 15, 16, 17, & 20mm plastic pipe. We also hold a substantial stock of copper fittings to connect your system to the main flow and return.

## Compression Couplings

Code	Size	Price
CC12	12mm Compression Coupling	£4.99
CC15	15mm Compression Coupling	£4.99
CC16	16mm Compression Coupling	£3.18
CC17	17mm Compression Coupling	£4.99
CC20	20mm Compression Coupling	£4.99
CE16	16mm Elbow	£3.48

## 28, 22, & 15mm Fittings

Code	Size	Price
321609	Female Compression 15mm x 1/2"	£2.50
318116	Female Compression 15mm x 3/4"	£2.50
318120	Female Compression 22mm x 1"	£2.30
318122	Female Compression 28mm x 1"	£2.88
318060	Male Compression 15mm x 3/4"	£2.70
318066	Male Compression 22mm x 3/4"	£2.70
318068	Male Compression 22mm x 1"	£2.70
318069	Male Compression 28mm x 3/4"	£2.70
318070	Male Compression 28mm x 1"	£3.00
349145	Hexagonal Bush 1" x 1/2"	£1.83

## Need a specific product?

We stock a wide range of pipe fittings and adaptors to suit different sizes of plastic and copper pipe.

## Staples & Rails

Code	Size	Price
PIPECLIP40	Pipe Staples 40mm x300	£8.10
PIPECLIP50	Pipe Staples 50mm x300	£8.10
PIPECLIP60	Pipe Staples 60mm x300	£8.90
PCR01	Self Adhesive Rail 1m	£1.15

## Conduit & Pipe Bends

Code	Size	Price
BLUEPIPECONDUIT	22mm Conduit x 50m	£19.45
REDPIPECONDUIT	22mm Conduit x 50m	£19.45
PSB1612	90° Pipe Support Bend	£0.68

## Edge Insulation

Code	Size	Price
YELLOW-EIN25	25m x 150mm x 8mm	£12.58

## Wet Screed Panels

Code	Size	Price
WSP01	1250 mm x 850 mm x 20	£5.99

## Key Features

- ✓ Recycled high impact plastic
- ✓ 1.06 sq. m - 1250mm x 850mm x 20mm
- ✓ 100mm, 150mm and 200mm centres

★★★★★ Mr Wooldrige

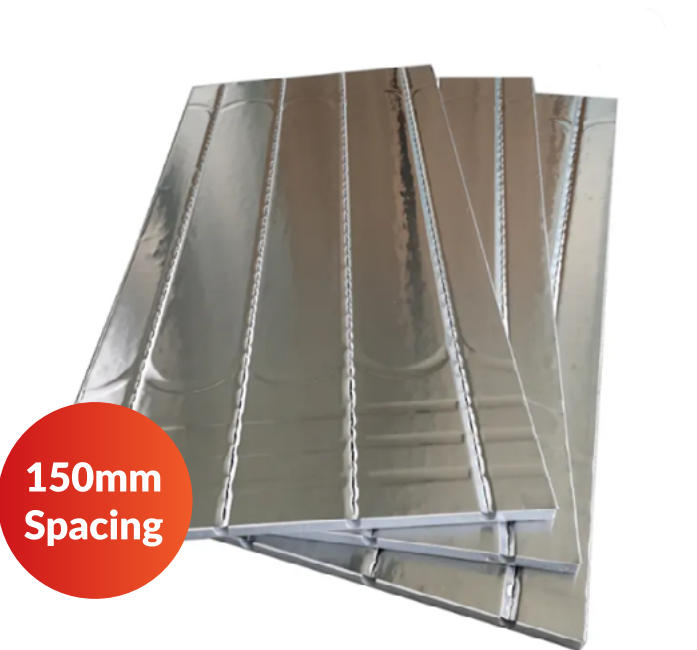

I found the 20mm panels supplied by VPS to be of the highest quality and unbeatable value.

 4.9 average rating

## Overlay Boards

Our low profile overlay floor panels offers a simple solution to install underfloor heating into your home without the need to lift your floor. The panels can be secured onto the existing solid flooring and are a perfect choice for retrofit installations.

The boards are lightweight, durable, and compatible with all floor coverings, including laminate, carpet, tiles, vinyl, and engineered wood. Panels are topped with 200 micron aluminium foil, which facilitates swift heat-up times as low as 30 minutes. Aluminium provides excellent heat distribution, ensuring that heat spreads evenly across the entire floor.

### XPS400

The 20mm board accommodates 16mm pipe, spaced every 150mm. The boards are secured with adhesive and feature pipe channels, pipe turns, and return channels for seamless installation

#### Key Features

- ✓ Low Profile
- ✓ 150mm pipe spacing
- ✓ High compressive strength
- ✓ 200 micron - optimal for floor heat up times
- ✓ Return loops standard in every panel

Code	Size	Price
XPS400	600mm x 1200mm x 20mm	£9.46

## XPS500

XPS500 boards feature pipe grooves spaced at 120mm centres. Due to the tighter bending radius they also feature light bulb-shaped 180° turns streamlining installation while minimising the risk of pipe damage. The closer spacing delivers higher heat output than 150mm spacing, making these boards ideal for heat pump installations.

### Key Features

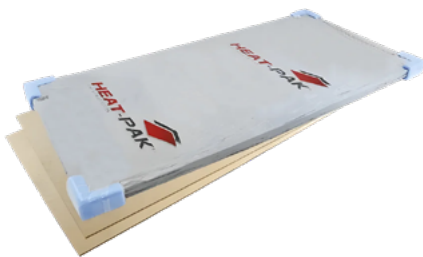

- ✓ Light bulb turns
- ✓ 120 mm pipe spacing
- ✓ 200 micron - total coverage including channels
- ✓ High Compressive Strength 500Kpa

Code	Size	Price
XPS500	600mm x 1200mm x 20mm	£9.46

## Blank & Transitional

Code	Size	Price
XPS400T	XPS400 Transitional	£10.40
XPS400BLANK	XPS400 Blank Board	£6.90

## Heat-Pak 2.8m2

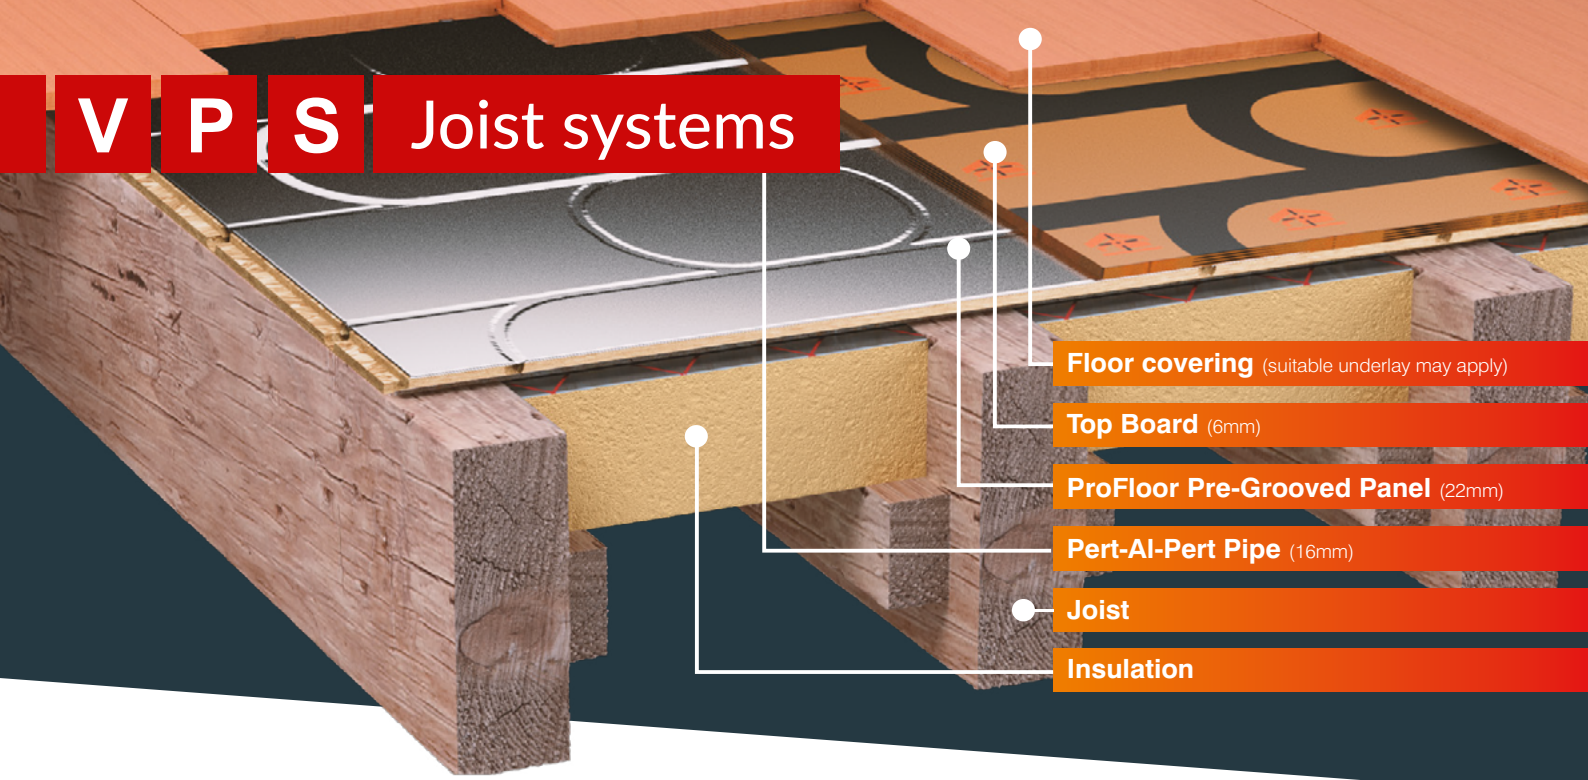

Code	Size	Price
HP2.8M	1200mm x 600mm x7mm Top Board Thickness 4mm Base Board Thickness 3mm	£53.33

## Spray Adhesive

Code	Size	Price
SPRAYCAN	500ml Spray Can	£5.50
ADHESIVE CANISTER	13KG Canister	£210.00
SPRAY GUN	Spray Gun & Hose	£180.00

# V P S Joist systems

**Floor covering** (suitable underlay may apply)

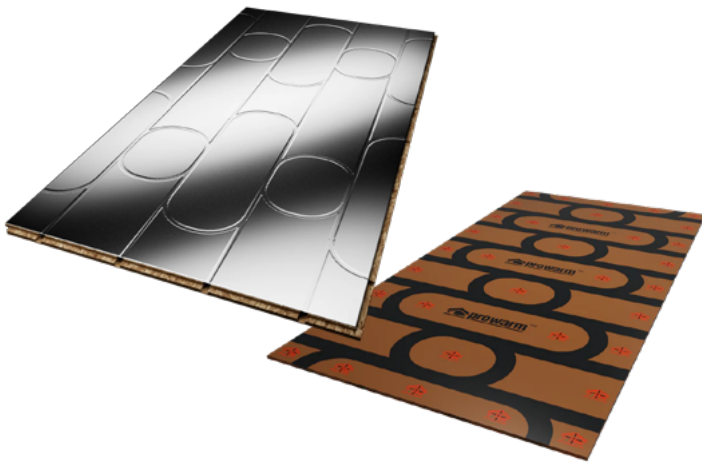

**Top Board** (6mm)

**ProFloor Pre-Grooved Panel** (22mm)

**Pert-Al-Pert Pipe** (16mm)

**Joist**

**Insulation**

## Key Features

- ✓ 1200mm x 600mm x 22mm
- ✓ 16mm pipe @ 150mm Pipe spacing
- ✓ 75-micron aluminium foil

## ProFloor System

Pre-routed foil faced OSB combines structural strength with excellent thermal performance, making it perfect for both new builds and renovation projects.

Its pre-routed design accommodates 16mm underfloor heating pipes, ensuring easy installation and optimal heat distribution. Pro floor boards are 22mm thick and made from high-quality OSB. The board is moisture-resistant and strong enough to act as a subfloor, supporting a variety of finishes.

Code	Size	Price
PROFLOORFOIL	1200mm x 600mm x 22mm	£22.00
PROFLOORTOP	1200mm x 600mm x 6mm	£10.00

## 6mm No More Ply

Intermediate layer for profloor or Overlay boards.

Code	Size	Price
NOMOREPLY6MM	1200mm x 600mm x 6mm	£8.69

★★★★★ Dean Smith, Infinity Electrics & Security, Withybrook, Warwickshire

VPS have done it again! Great service and good packaging unlike other companies we have used and very quick delivery, which is very much needed by our customers in the winter. which makes our job easier.

★★★★★ Greg O'Connor, Go Heating, Hoddesdon, Herts

Have used vps on a few occasions, I'm a heating engineer and with the help of vps am able to quote accurately as any interaction with them is very helpful, their price point means I am assured that I'm getting the best price, easy to order as designed for myself, looking forward to more business opportunities to come, will definitely use going forward.

★★★★★ Mido Hamdallah, Dynamic Heating and Gas Services, Edinburgh

I am a professional heating and gas engineer been working in the central belt for over 20 years and been using Vps underfloor heating now for so many years.. Great staff, great service, really good products available at amazing prices. Highly recommended.  
In fact, Vps under floor heating is the only place for the last seven years at least I've been going to for all my underfloor heating supplies including controls.

★★★★★ John Wooldridge, Downend Home Heat, Bristol

First time dealing with VPS, I was impressed with the wide range of products and very competitive pricing. I install underfloor heating systems on a regular basis and found the 20mm panels supplied by VPS to be of the highest quality and unbeatable value. Delivery was fast, reasonably priced and arrived on the site on the day required. I certainly intend to use VPS as a supplier again and would highly recommend them to professional and DIY installers alike.

★★★★★ Adam Skoyles, RS Boiler Services, Marlow, Bucks

I have used VPS on several occasions for different jobs of differing scale. VPS have been very helpful with their design services, and are able to satisfy my demands of tweaking flow temperatures when designing heat pump systems without fuss or delay. Their prices are extremely competitive, the delivery has ALWAYS been prompt and they have always answered the phone when I've had a query. I cant really fault them at all...

★★★★★ Svetlin Yordanov, Svetmar Interiors, London

In the past I used to buy my underfloor heatings from different big names until I came across VPS. Long story short extremely happy with service, advice and sales cost provided by there staff. I will always recommend them to my clients.
